SUMMARY

Detail-oriented Python Backend Developer and Data Engineer with 4+ years of professional experience designing scalable business logic, optimising database performance, and executing large-scale data migrations. Strong technical expertise in Python, SQL and Odoo. Proven track record of resolving complex database bottlenecks, automating backend workflows, and building analytical data dashboards. Possesses full UK work authorisation with no sponsorship required.

CORE SKILLS

- **Programming & Databases:** Python, SQL, PostgreSQL, MongoDB
- **Data Engineering & Analytics:** Data Cleansing, Regex, EDA, Pandas, Data Validation, Transformation & Migration
- **Backend, DevOps & Integration:** Odoo ORM, REST APIs, CI/CD, JSON, XML, CSS, Linux Environment
- **Visualization & Tools:** Looker (Data Dashboards), Jupyter Notebook, GitHub Version Control
- **Productivity Suites:** Microsoft Office (Word, Excel, PowerPoint), Google Docs, Google Sheets

PROFESSIONAL EXPERIENCE

Software Developer | Odoo India | January 2022 – October 2025

- Executed large-scale data migrations handling millions of records across thousands of tables, systematically identifying and resolving complex data architecture issues.
- Developed and executed migration strategies that enhanced data processing speed by 100% while consistently maintaining a 99% solution success rate.
- Engineered backend code optimisations that drove a 100% improvement in database query performance and system response times.
- Resolved 700+ technical tasks and merged 500+ GitHub pull requests, maintaining a 100% project success ratio and significantly decreasing system bugs.
- Debugged and optimised complex code using Python, SQL, JSON, XML, and CSS to enhance core ERP system performance.
- Deployed critical updates across all core customer databases, ensuring zero downtime and earning excellent reviews from key stakeholders and clients.
- Mentored and coached 5+ junior team members, accelerating their technical onboarding and improving team delivery timelines.
- Collaborated effectively within a large cross-functional environment of 50+ members to streamline sprint velocity and align engineering goals with business needs.

Software Developer | KoderXpert Technologies Private Limited | October 2025 - Present

- Developed Python and Odoo ERP backend features to support automation, reporting and data-driven business workflows.
 - Customised Odoo modules, workflows, models and XML views, reducing manual processing by 30%.
 - Optimised SQL/PostgreSQL queries for data extraction, validation and reporting across 10,000+ records.
 - Supported data migration, cleansing, mapping and reconciliation, helping maintain 98%+ data accuracy.
 - Prepared data analytics reports using SQL, Excel/Google Sheets and structured datasets for business decision-making.
 - Resolved 50+ backend issues across Python, Odoo ORM, PostgreSQL, XML, JSON and REST APIs.
 - Delivered updates based on client feedback and change requests, improving usability and customer satisfaction.
 - Used GitHub for version control, pull requests and remote collaboration, ensuring clean and timely code delivery.
-

TECHNICAL PROJECTS

- **Placement Management System (Python, PostgreSQL, Odoo, XML)**
 - Built role-based access logic and optimised SQL filters to automate student eligibility routing workflows.
 - **Jewellery Management System (PHP, MySQL)**
 - Developed an inventory tracking application with automated transaction logging to streamline operational reporting.
 - **AI Lead Generation & Outreach Agent – Moola Global Payments Project**
 - Built an AI-powered lead generation prototype to identify B2B prospects, structure lead data, create personalised outreach emails and track pipeline status using Python, Excel/CSV data handling, automation logic and CRM-style dashboard reporting.
-

EDUCATION

Master of Computer Applications (MCA) | 2022

- Gujarat Vidyapith, Ahmedabad

Bachelor of Computer Applications (BCA) | 2020

- SMT. K. B. Parekh BCA College, Mahuva
-

ADDITIONAL INFORMATION

- **Certifications:** Odoo Professional Course Certificate | AWS Cloud Architecture for Beginners | Looker Data Visualization Dashboard
- **Work Authorisation:** Full UK Work Authorisation (No visa sponsorship required).
